

Enhanced Integrated Framework

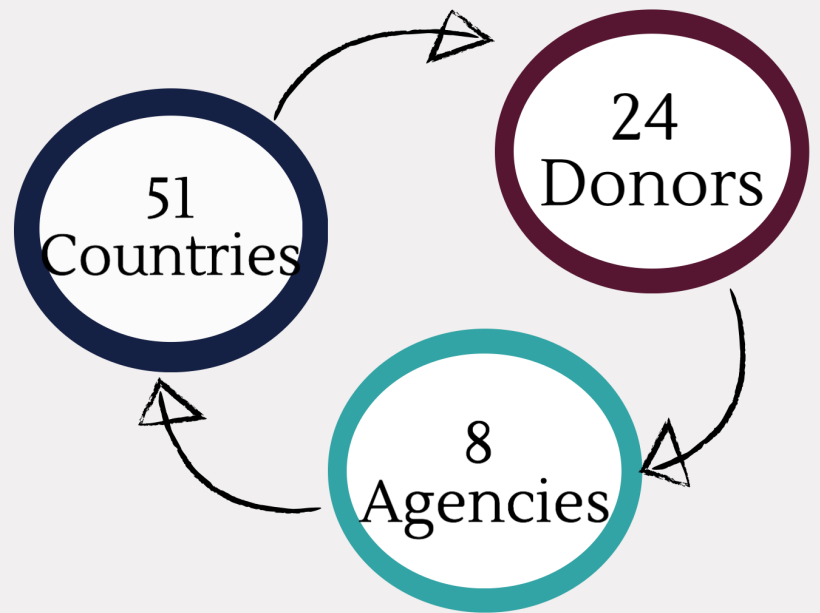

Trade for LDC development

EIF Partnership

The EIF is the only Aid for Trade program exclusively designed for the Least Developed Countries (LDCs).

The EIF works on the trade-related challenges of the world's poorest countries, helping them leverage trade for growth and poverty reduction.

The EIF Partnership supported 149 projects totaling over US\$ 200 million.

How it works

Institutional Capacity Building

Integrate trade and strengthen institutional capacities for country leading its own trade and development agenda

Diagnostic Trade Integration Study (DTIS)

Identify country's biggest constraints to trade, prioritize action to address them and harmonise efforts to provide trade-related support

Productive Capacity Building

Address priorities through specific projects together with governments, donors and developing partners

EIF Partnership on Digital Connectivity

Evidence-based analytical work

21

DTISs/Updates with ICT priorities

90%

of EIF Institutional Support projects have Government-Donor Dialogues

Institutional support

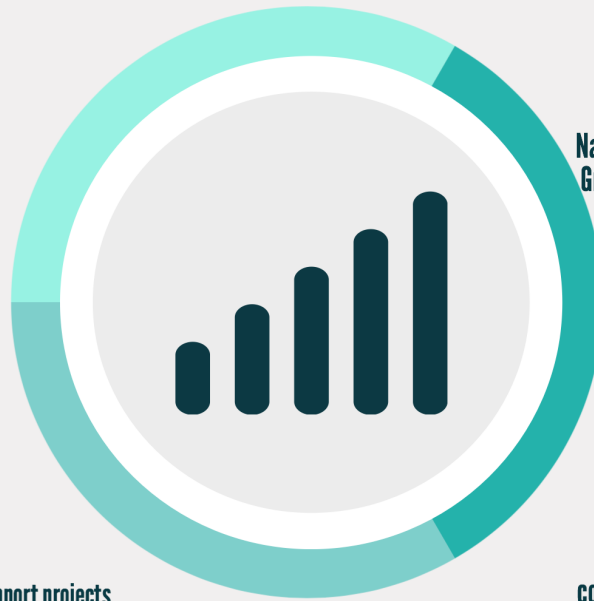

National Steering Committees for Greater stakeholder coordination

100%

ICT project with e-commerce component to strengthen Bhutan's connectivity

1st

Strengthening catalytic role

Reducing supply side constraints

Action Matrix Priorities
